Assemblyman Robert Oaks
10 Leach Road
Lyons, NY 14489

Dear Assemblyman Oaks,

I've included another [Letter written to local Family Court](#). I've talked to Myra at your local office about this. I certainly understand you can't get involved in a legal proceeding; but I am asking you look at what has happened to me and so many other parents. The Family Court Act, which allows this injustice to occur, is a product of the State Legislature.

I'm increasing my public action to call attention to the need for Family Rights. I recently received a mailing from your office about your campaign to call for a Constitutional Convention in New York. I think that is a great idea and I hope you will be able to endorse the attached [Declaration of Family Rights](#) as a foundation for any future Family Law legislation.

I really hope you can take the small step of introducing a bill supporting [Parental Notification of Child Birth](#). Certainly, everyone I've talked to understands both parents have a right to know when their child is born.

Best regards!
